| Client | **Crowe LLP** |
| Services | **Building Condition Survey** |
| Type | **Offices / Retail** |
| Value | **N/A** |

Pulsar undertook a building condition survey of this 13,000 sq. ft. office building which included a converted Georgian Grade II listed former Georgian house and a more modern office extension.  Our involvement included a survey of the site and report on the condition and future maintenance liabilities to advise on strategic property planning.
